

Woman's Club Adopt Notice and Emblems

Representative Organization of Carrizozo Women Meet Last Friday. Suggestions Offered and Motto Chosen; Also Club Flower and Club Colors. Aims and Objects of Society.

Last Friday afternoon the Carrizozo Woman's Club met in regular session. The meeting was well attended considering the fact that other gatherings of women were held about town which would naturally draw from an assemblage of this nature. The principal object of interest at this meeting was the selection of a motto, flower and club colors. Members of the club had been requested to offer suggestions to which they readily responded. The following mottoes were suggested: "One Another, Help One Another," "Harmonious Endeavor for Noble Advancement," "For Home, Fireside and Social Purity," "Our Mental Attitude To-Day, Determines Our Success To-Morrow," "In Harmony Lies Success," "The Temple of Knowledge is in Our Very Midst" and others of a like nature.

Flower suggestions were as follows: Cactus, Pink and White, White Carnation, Cosmos, Chrysanthemum, Shasta Daisy and many others. For Club colors, yellow and white, pink and white, pink and green, blue and gold were suggested. The matter was turned over to a committee, and after carefully considering the different suggestions, reported as follows: Motto for the club, "One Another, Help One Another"; Club Flower, White Carnation; Club Colors, Purple and Gold. The aims and objects of this important club, heretofore appearing in these columns are substantially as follows: To resist all efforts to weaken the Volstead act, to urge the passage of the Smith-Towner, Shepherd-Towner and Fess bills, to remove constitutional limits on service of state and county school superintendents, to assist in bettering the salary condition of school teachers, to enter protest against closing of the Gallinas forest to prevent 100,000 small trees from perishing, state censorship of moving pictures, to support the state health department, the anti-tubercular association, and girls' welfare board. All this and many other reforms principal among which is the supporting of the movement for children's welfare.

There will be a called meeting of the executive committee which is composed of chairmen of the different departments of the club, at the office of County School Superintendent, Mrs. M. L. Blaney, on the afternoon of November 29 and all interested are urged to attend as matters of vital interest to the club are to be considered.

White-Oursley

In the city of El Paso, November 12th, with the Rev. Hinton performing the ceremony, occurred the marriage of Lawrence W. White, cashier of the First State Bank of Capitan, N. M., and Miss Josephine Oursley of Houston, Texas. The couple had planned the wedding in this manner so as to serve the Capitan people with a nice surprise, but it seems that the secret leaked out in some unaccountable manner according to the Capitan Mountaineer which says:

"The funny thing about this happy union was, L. W. was not as slick as he thought he was in keeping it so entirely secret. Just before they arrived on the night of the 12th, inst. the young folks of the town got a tip that it had all happened and that he was on his way home with his bride, so they slipped into his house and were waiting for the gentleman and wouldn't leave until he had 'set 'em up.'"

The bride was formerly an Iowa girl but has for some time been a resident of Texas. Mr. White being an old Iowan himself, accounts for his past attentions to the former Miss Oursley in the Hawkeye state, where their courtship resulted in the nuptial knot being tied on the border. Since locating in Capitan and assuming control of the bank, Mr. White has made many friends both at that place and surrounding towns principal among which is Carrizozo, and the bride, while unacquainted here, will find that our people will become her friends at first sight. The Outlook extends its congratulations to the newlyweds, wishing them a world of undisturbed happiness.

52,000 Head of Cattle Shipped Out of State In Month of October

Fifty-two thousand cattle were shipped from New Mexico during the month of October, according to an announcement of Frank Clark, director for the New Mexico Cattle Sanitary board. Most of these have gone to market at Kansas City, Denver and Fort Worth.

Between 7,000 and 8,000 have been sent to Chihuahua, Mexico, for grazing and some have been sent to pasture at Pecos and Toyah, Tex. The pastures near Albuquerque are now green and, according to the director, the prospects for a heavy shipment of cattle in November are bright.

The absence of Dr. Cole's School Notes, which are read weekly with so much interest, may be accounted for by the fact that he has spent the present week at the Teachers' Convention in Albuquerque. Again, our schools have been closed in order that the teachers might have the liberty of attending the convention which many of them did.

71 Cross Hot Sands In Shrinedom

(By Albuquerque Herald)
"Who is that fellow in the yellow gown tied to the pole?" asked a pedestrian at Second street and Central avenue this morning shortly after 9 o'clock.

The inquirer was informed that the man was but one of 71 candidates here to cross the hot sands leading into Shrinedom. Between 9 and 11 o'clock other oddly-dressed men appeared on the street, some in company with guards.

At 11 o'clock the candidates were out en masse and formed the comedy section of the parade which was held on the streets and which ended at the Masonic temple. The parade was headed by the Shrine and Indian School bands and then a body of Shriners, the novices following in costumes rivaling circus clown suits. The camouflage iron cage brought up the rear and picked up Shriners as it went toward the temple.

Following the buffet luncheon for nobles and novices at the temple at noon there was a business session and then the ceremonial proper. The ceremonial ended with a dance for all candidates, Shriners and their wives at 9 o'clock tonight.

While the ceremonial was under way, wives of the Shriners and Candidates were entertained at an auto ride and luncheon at the Alvarado at noon. Among those who crossed the "Hot Sands" from Carrizozo were Messrs. S. G. Allen and L. B. Crawford. They, as announced last week in company with J. W. Johnson of Bogle received the 32nd degree at Santa Fe after which the two first named gentlemen journeyed to the Duke City where they crossed the "sands." Their feet will be somewhat sore when they return, but otherwise they will be all right.

Termination of the Luttrell Trial

The case of Pascual Luttrell vs. State of New Mexico, which has attracted so much attention for the past week, ended Wednesday morning, by the case being appealed to the Supreme Court. On convening of court, attorneys Prichard & Merchant notified the Judge that since the testimony had been offered, a very important witness had been withheld on account of the party in question, not desiring his name to be connected with the case. The deposition stated that the new witness saw the entire affair from a nearby place in the ally and on this ground, attorneys, made an appeal to the higher court after Judge Mechem pronounced sentence on Luttrell which was from 20 to 25 years in the state penitentiary. After filing the appeal the prisoner was remanded to jail and bonds placed at \$10,000, which it is claimed will be furnished shortly.

Golden Wedding

On the 27th day of November, 1920, the Golden Wedding of Judge and Mrs. Seth F. Crews will take place at their home in Fairfield, Illinois, and their many friends in this locality have received invitations to the affair, which if it were possible for all to attend would give each guest an experience of pleasure beyond what we could describe here. Only those who have been recipients of the hospitality of the Crews home can understand just what pleasure would be experienced at the Golden Wedding. Many things of vast importance might drift entirely out of the mind, but to those who will have the opportunity of taking part in the fiftieth anniversary of Judge and Mrs. Seth F. Crews will be furnished with a loving experience that will remain fresh in "Memory's Golden Frame," as long as time shall last. On the eve of this pleasant event, we offer our humble congratulations.

Attempt Made To Wreck Train

(Albuquerque Herald)
The finding of a heavy bolt tied to a rail three miles north of Albuquerque at 10 o'clock Saturday morning is probably all that prevented the wrecking of east-bound Santa Fe train No. 10 of that day and prevented probably death and injury to passengers and railroad crews, it was learned today.

The bolt was tied to the rail with a large rag and according to Santa Fe Station Master Ed Sinclair, who was the first official notified of the matter, the bolt would probably have sent half the train into the ditch, had the engine run into it.

Mrs. French Entertains

Mrs. J. B. French entertained the Thursday Afternoon Bridge Club at her home last week. Bridge playing was the order of the afternoon which was followed by the serving of refreshments. The Club meets every two weeks, the next lady to entertain being Mrs. Elizabeth Gumm, who will be hostess of the Club Thursday afternoon, December 2nd.

Who Remembers the solitary Democrat that was the only one to return thanks?

State Educators Convene At Albuquerque

Many Valuable Recommendations Made as Association Shows a Marked Increase in Interest and Membership. Child Welfare to be Placed State Department of Education.

Albuquerque, N. M., Nov. 23. —A change in state educational administration vitally different in its provisions from the present order of things, was suggested at the State Educational convention which convened here the first of the present week. The council which is the governing body of the Association elected officers as follows: L. C. Rhodes, Raton, chairman; W. O. Hall, Silver City, vice chairman; Mrs. M. L. Blaney, Carrizozo, secretary.

The resolutions offered at the preliminary session at the High School Auditorium by Walter McFarland of East Las Vegas, were adopted at the first session of the convention, the substance of which are as follows: Providing for the appointment of a board of education composed chiefly of members of the state teaching force; certificate requirements for teachers; better salaries and the passage of a pension law; that child welfare department be placed under the state department of education and the passage of a strong child labor law with a fine for the employment of a person under the age of 17, with a forced school attendance up to the age of 18. The convention is by far, the most important of any heretofore held in the state.

It will be observed by the above information, that Lincoln county has been honored by the election of our county school superintendent, Mrs. M. L. Blaney, to the office of secretary of the council which is the governing body of the convention. We also have at the convention, Dr. E. E. Cole, whose advice as an important educator will be of valuable assistance on matters of the most vital importance to the deliberations of that educational body. Other teachers from Carrizozo are: Mrs. Elizabeth Gumm, the Misses Fordson, Neff, Heron, Burton, Humphrey and Mr. Cazier.

Harding Favors Paid Government Advertising

"Newspaper advertising is a commodity, and where the government requires it, as it often does, it should be paid for as other commodities are.

"We are growing daily into wider use of publicity, but we MUST NOT add to free service imposed upon the press when that which is clearly advertising is covered by purely business methods.

It is extremely important to encourage the weekly press. The great publications of general circulation and the daily press in well populated centers are firmly founded and commercially established. The weeklies are no less important to the communities they serve though their publication is much more difficult."—Warren G. Harding.
